<b>S.P.S. Announcement</b> .....	N1
Preface	Manabu TANAKA..... 1
Preface of Reviews	Masaya SHIGETA..... 2
<b>Reviews</b>	
Fundamental Research on Multi-functional Materials by Atomic to Micron Trans-scale Design and Their Applications	Junko UMEDA..... 3
Formation of Functional Oxide Thin Film by Plasma-assisted Reactive Process Using Mist	Kosuke TAKENAKA and Yuichi SETSUHARA..... 10
X Ray Induced Real Time Observation of Pure Copper Layer Formed by Laser Metal Deposition with Blue Diode Lasers	Yuji SATO, Takahisa SHOBU and Masahiro TSUKAMOTO..... 15
Consideration of The Effect of Residual Stress Distribution in Performance Evaluation of Welded Joints and Its Issues	Yoshiki MIKAMI..... 20
Metallurgical Phase Transformation During Welding and Control of Properties of Weld Metals	Kota KADOI and Hiroshige INOUE..... 26
Modelling and Numerical Methods for Multi-Physics in Nanoparticle Mass-Production Processes Using High-Enthalpy Plasma Flow Fields	Masaya SHIGETA..... 32
<b>General Thesis</b>	
Effect of Al Interlayer on Thermal Cycle Reliability for a Semiconductor Die-attached Joint with Ni-Sn Transient Liquid Phase Bonding	Hirofumi ITO, Shinji FUKUMOTO and Kozo FUJIMOTO..... 39
