

Journal of Smart Processing
Vol. 11 No. 6 2022 (November 2022)

CONTENTS

Nanostructures Open the Way to Cutting-Edge Electronics

S.P.S. AnnouncementN25

Preface

Nanostructures Open the Way to Cutting-Edge Electronics

Shinji KOYAMA271

Reviews

Low Temperature Sintering Process Using Organic Acid Stabilized Copper Fine Particles

Tetsu YONEZAWA and Hiroki TSUKAMOTO272

Sinterability and Bondability of Cu Paste Using Reductive Solvent

Takanori KOBATAKE, Banri IKEDA, Ryo ITAYA and Katsuaki SUGANUMA278

Film Formation Technology for Functional Nano-Structured Ceramic Thin Films

Tohru SUGAHARA284

Development of Bio-Interfaced Device Based on Nanosheet Electronics

Toshinori FUJIE289

Research Papers

Evaluation of Heat Resistance of Ag-Cu Hybrid Sintering to Cu Substrate

Tomoki MATSUDA, Seigo YAMADA and Akio HIROSE294

S.P.S. NewsN28
