Preface

A Systems Approach to Production and Product Development

Yoshiharu IWATA.....	299
----------------------	-----

Review

Case Studies and Prospects of AI-Assisted Metrology

Yoshihiro MIDOH.....	300
----------------------	-----

Research Papers

Copper Content Optimization for Asymmetric Package Substrate Warpage
by Genetic Algorithm

Hiroyuki MORI.....	306
--------------------	-----

Cause Prediction of Product Defects Using Event Causality

Hidefumi WAKAMATSU, Itsuki HATANO, Eiji MORINAGA and Yoshiharu IWATA.....	314
--	-----

Enhanced Integrated Method of Distributed Scheduling and Simulation for
Highly-Distributed Flexible Job Shops

Eiji MORINAGA, Daiki YASUDA and Hidefumi WAKAMATSU.....	326
---	-----

Fundamental Study on the Hierarchical Multi-Objective Optimization Method

Yoshiharu IWATA, Satoshi TERADA, Takumi TOMOMOTO, Hidenori MURATA and Ryohei SATOH.....	336
--	-----

General Thesis

Cross-Sectional Observation of Aluminum/Thermal Conductive Grease/Copper under Pressure

Yasuhiro TAKATANI, Yoriko MATSUOKA, Kousuke KITAZUMI, Megumi SASAKI and Hiromitsu TANAKA.....	345
--	-----
