Advanced Metal Additive Manufacturing Technology

S.P.S. Announcement	N7
Preface of Feature Article	
Preface to the Special Issue on “Advanced Metal Additive Manufacturing Technology” Masahiro TSUKAMOTO.....	51
Feature Articles	
Review Articles	
Additive Manufacturing Process Keeps on Evolving Masaaki KIDERA.....	52
Effect of Laser Beam Profile on Denudation Zone Formation in 3D Fabrication of SUS316L by Laser Powder Bed Fusion Yuji SATO and Masahiro TSUKAMOTO.....	58
Investigation of Causes of Pore Defects and Development of Suppression Technology in Laser Metal Deposition of WC-Co Cermet Material Takuto YAMAGUCHI, Keigo TANAKA, Takeshi SUYAMA and Hideki HAGINO.....	64
Process Control and Case Studies of Wire-Laser Metal 3D Printer Satoshi HATTORI, Yoshiyuki MATSUI, Shun KAYASHIMA, Nobuyuki SUMI and Ryogo KOBAYASHI.....	71
Regular Research Article	
Effect of Laser Heat Input on Pure Copper Layer Formation by Wire-Based Directed Energy Deposition Using Blue Diode Laser Satoshi YOSHIDA, Yuji SATO, Keisuke TAKENAKA, Masami MIZUTANI, Takeshi TAKAISHI and Masahiro TSUKAMOTO.....	76
