

Journal of Smart Processing
Vol. 14 No. 6 2025 (November 2025)

CONTENTS

Special Issue on the 50th Anniversary of Smart Processing Society for Materials, Environment & Energy

Preface of Feature Article

Special Issue on the 50th Anniversary of Smart Processing Society
for Materials, Environment & Energy

Hiroshi NISHIKAWA..... 265

Greeting

Manabu TANAKA..... 266

Congratulatory Address

Hidetoshi FUJII..... 268

Special Contribution

Retrospective Review of High Temperature Society

Seiji KATAYAMA..... 269

Celebrating the 50th Anniversary of the Smart Processing Society for Materials,
Environment & Energy

Yoshinari MIYAMOTO..... 271

Special Article

Activities and Future Prospects of Research Group on Laser Process

Masahiro TSUKAMOTO..... 272

Activities and Future Prospects of Research Group on Environmental and Energy Process

Tamio IDA..... 273

Activities and Future Prospects of Research Group on Additive Manufacturing

Soshu KIRIHARA..... 276

Activities and Future Prospects of Research Group on Manufacturing Science
and Technology in Electronics

Ikuo SHOHJI..... 277

Regular Research Article

Effects of Ring Beam Diameter on Keyhole Behavior and Spatter Generation Mechanism
in Laser Welding of Stainless Steel

Takashi KAYAHARA, Takeshi TANABE, Keisuke TAKENAKA,
Yuji SATO and Masahiro TSUKAMOTO..... 280

Thermal Conduction and Specific Heat Characteristics of Bio-Coke for
Thermal Energy Storage Applications

Nur Syahirah KAMAL BAHARIN, Nur Hamiza ZAINUDIN and Tamio IDA..... 288

Mechanical Strengthening of Lightweight Metals by
Fractal Pattern Surface Modification via Stereolithography

Fiona SPIRRETT and Soshu KIRIHARA..... 294

Reliability of Transient Liquid-Phase Bonded Layer Using Cu-SnAgCu Molded Sheets by
High-Pressure Powder Compression

Ichizo SAKAMOTO, Hiroaki TATSUMI and Hiroshi NISHIKAWA..... 301

Report

Soshu KIRIHARA..... 309

S.P.S.News and Announcements N23
