

**Journal of Smart Processing**  
*Vol. 7 No. 2* 2018 (March 2018)

CONTENTS

亜臨界水環境下での革新的な資源化に関する技術展開 ~その2~

<b>S.P.S. Announcement</b> .....	N3
Preface..... Tamio IDA.....	33
<b>Reviews</b>	
Concentration and Hydrothermal Liquefaction of Microalgae for Biofuel Production Mitsutoshi NAKAJIMA and Sosaku ICHIKAWA.....	34
Basic Combustion Characteristics of High Density Solid Biomass Fuel Manabu FUCHIHATA.....	39
<b>Research Papers</b>	
A Trial Production of Bio-coke with General Waste and its Verification Combustion Test by Real Shaft Furnace Yasuhito NAKATAKE, Satoru MIZUNO and Tamio IDA.....	46
Studies on Producing of Woody Biomass Fuel and Utilizing of Combustion Ash - Production of Small Diameter Bio-coke and Characterization of Blend Firing - Atsuhiko KAWAMURA, Kaito ISHII, Satoru MIZUNO and Tamio IDA.....	51
Influence of Crushed Particle Size and Formed Diameter as Scale Factors on Molding Characteristics of Bio-Solid Fuel Satoru MIZUNO and Tamio IDA.....	57
<b>General Thesis</b>	
Study of Improvement of Power and Stability of Magnesium Air Battery - Influence of Cathode Materials and Structures on Battery Properties - Keijirou ITAKURA, Takahiro TSUTSUI, Zhonghao HENG Hirohisa HIRAKI, Shigeaki UCHIDA and Yasuo TAKAHASHI.....	65
<b>S.P.S. News</b> .....	N4
